

# EZ SortCart Classic™

VERTICAL MAIL STORAGE SOLUTION

Organize your valuable floor space and eliminate costly sorting errors with the EZ SortCart Classic.

- Four or five tray wide cart configuration.
- Holds thousands of pieces of mail.
- Accommodates any standard USPS tray or tub.
- All welded, stainless steel construction.
- Heavy-duty, double ball bearing casters.
- Optional caster brakes.

**EZ SortCart Classic™** is designed to hold any USPS mail tray or tub at the ideal angle for access. Ideal for both hand sorting or for staging materials, sorted mail can be easily placed in the appropriate tray. Full mail trays can be sleeved in place and extracted from either the front or rear of the cart.

The EZ SortCart Classic is available in two sizes. The Classic has two angled shelves holding four or five trays or tubs across. Each shelf is engineered to provide easy, ergonomic access to the mail trays or tubs. Depending on the model, that's 8,400 to 10,500 pieces of mail in only 9 square feet! The bottom shelf allows for additional mail tray or sleeve storage.

All welded, heavy-duty stainless steel construction means we've built the SortCart Classic to give you years of dependable service. Casters take the brunt of the wear and tear on any cart, so we've incorporated the finest double ball-bearing castors available. The SortCart will easily move on any floor surface. Optional brakes will allow the cart to be placed and locked into any position.
