

EZ Tub Trucks™

MAIL TUB STORAGE AND TRANSPORTATION SOLUTION

Ideal for staging, transporting, and storing materials for use in an inserting or presort environment.

- **Two sizes: 9 or 12 tub capacity.**
- **Especially designed for sorting bulky materials.**
- **Durable stainless steel construction.**
- **Tubs can be positioned for storage or sorting.**
- **Exceptional mobility while transporting heavy loads.**

Tubs sit in 2 positions: down for transporting and up for loading.

EZ Tub Truck™ accommodates nine or twelve USPS tubs in approximately 5 square feet of valuable floor space. The tubs can be placed in two positions; one for sorting, and one for transporting. The angled design allows for easy access to the entire tub without removal from the cart.

An all welded stainless steel frame and heavy duty double ball-bearing casters makes this mobile sorting center virtually indestructible. Optional brakes allow you to place and hold the cart in any locale. From the time you take it out of the box—ready to use—until you retire, the EZ Tub Truck will continue to look new, and the high quality casters will keep it performing like new.

No other product allows you to hand-sort, transport, and deliver bulky materials, using only one piece of equipment.
